

Readvive APIs

This collection contain all readvive api

Auth

POST SignUp

https://readvive.onrender.com/api/v1/auth/signup

BODY raw

```
{
  "first_name": "rafsan",
  "last_name": "choto",
  "email": "rasfanchoto@gmail.com",
  "password": "abcd1234",
  "confirm_password": "abcd1234",
  "phone": "01912345678"
}
```

Example Request

SignUp

```
curl --location --request POST 'https://readvive.onrender.com/api/v1/auth/signup' \
--data-raw '{
  "first_name": "rafsan",
  "last_name": "choto",
  "email": "rasfanchoto@gmail.com",
  "password": "abcd1234",
  "confirm_password": "abcd1234",
  "phone": "01912345678"
}'
```

POST SignIn

https://readvive.onrender.com/api/v1/auth/signin

BODY raw

```
{
  "email": "tazilislam@gmail.com",
  "password": "iloveu143"
}
```

Example Request

SignIn

```
curl --location --request POST 'https://readvive.onrender.com/api/v1/auth/signin' \
--data-raw '{
  "email": "tazilislam@gmail.com",
  "password": "iloveu143"
}'
```

GET logout

```
https://readvive.onrender.com/api/v1/auth/logout
```

Example Request

logout

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/auth/logout'
```

PUT updatePassword

```
https://readvive.onrender.com/api/v1/auth//update-password
```

BODY raw

```
{
  "currentPassword": "iloveu",
  "password": "iloveu143",
  "confirmPassword": "iloveu143"
}
```

Example Request

updatePassword

```
curl --location --request PUT 'https://readvive.onrender.com/api/v1/auth//update-password' \
--data-raw '{
  "currentPassword":"iloveu",
  "password":"iloveu143",
  "confirmPassword":"iloveu143"
}'
```

Payment API

POST Get Payment Url

https://readvive.onrender.com/api/v1/payment/create

BODY raw

```
{
  "cus_add1": "53, Gausul Azam Road, Sector-14, Dhaka, Bangladesh",

POST login Admin User

https://readvive.onrender.com/api/v1/auth/signin

BODY raw

```
{
  "email": "mdfirozmia321@gmail.com",
  "password": "1234abcd"
}
```

Example Request

login Admin User

```
curl --location --request POST 'https://readvive.onrender.com/api/v1/auth/signin' \
--data-raw '{
  "email": "mdfirozmia321@gmail.com",
  "password": "1234abcd"
}'
```

Packages

GET Get all packages

https://readvive.onrender.com/api/v1/packages

Example Request

Get all packages

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/packages'
```

GET Get A Package

https://readvive.onrender.com/api/v1/packages/1

Example Request

Get A Package

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/packages/1'
```

PUT Update A Package

BODY raw

```
{
  "status":false
}
```

Example Request

Update A Package

```
curl --location --request PUT 'https://readvive.onrender.com/api/v1/packages/1' \
--data-raw '{
  "status":false
}'
```

DEL Delete A Package

```
https://readvive.onrender.com/api/v1/packages/{{id}}
```

Example Request

Delete A Package

```
curl --location -g --request DELETE 'https://readvive.onrender.com/api/v1/packages/{{id}}'
```

POST create package

```
https://readvive.onrender.com/api/v1/packages
```

BODY raw

```
{
  "name":"testing",
  "title":"Testing Effectively with edvive",
  "currency": "BDT",
  "price":5000 ,
  "discount": 999,
  "expiration": 20
}
```

Example Request

create package

```
curl --location --request POST 'https://readvive.onrender.com/api/v1/packages' \
--data-raw '{
  "name": "testing",
  "title": "Testing Effectively with edvive",

  "summary": "Atik bro",
  "level": "beginner"
}'
```

https://readvive.onrender.com/api/v1/passages?level=beginner

get all passages but if passage need to get by level please quering in the url
https://readvive.onrender.com/api/v1/passages?level=beginner otherwise get all passage
https://readvive.onrender.com/api/v1/passages

PARAMS

level
beginner

Example Request Get Passages

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/passages?level=beginner'
```

GET Get Passage

https://readvive.onrender.com/api/v1/passages/passage?lesson=91

PARAMS

lesson
91

Example Request Get Passage

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/passages/passage?lesson=91'
```

PUT Update Passage

https://readvive.onrender.com/api/v1/passages/passage?lesson=1

PARAMS

lesson

BODY raw

```
{
  "title": "Sea Dolphin"
}
```

Example Request

Update Passage

```
curl --location --request PUT 'https://readvive.onrender.com/api/v1/passages/passage?lesson=1' \
--data-raw '{
  "title": "Sea Dolphin"
}'
```

DEL Delete Passage

```
https://readvive.onrender.com/api/v1/passages/passage?lesson=1
```

PARAMS

lesson

1

Example Request

Delete Passage

```
curl --location --request DELETE 'https://readvive.onrender.com/api/v1/passages/passage?lesson=1'
```

GET Get Assessment Passage

```
https://readvive.onrender.com/api/v1/passages/passage/assessment?lesson=0
```

PARAMS

lesson

0

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/passages/passage/assessment?lesson=0'
```

GET Get Quizes

https://readvive.onrender.com/api/v1/quizes

Example Request

Get Quizes

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/quizes'
```

PUT Update Quiz

https://readvive.onrender.com/api/v1/quizes/1

BODY raw

```
{
  "ans_a": false,
  "ans_b": true
}
```

Example Request

Update Quiz

```
curl --location --request PUT 'https://readvive.onrender.com/api/v1/quizes/1' \
--data-raw '{
  "ans_a": false,
  "ans_b": true
}'
```

GET Get Quiz

https://readvive.onrender.com/api/v1/quizes/1

Example Request

Get Quiz

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/quizes/1'
```

DEL Delete Quiz

https://readvive.onrender.com/api/v1/quizes/1

Example Request

Delete Quiz

```
curl --location --request DELETE 'https://readvive.onrender.com/api/v1/quizes/1'
```

Discount API

Coupon API

POST Create Coupon

https://readvive.onrender.com/api/v1/discount/coupon

BODY raw

```
{
  "code": "edvive5",
  "discount_type": "flat",
  "discount_amount": 100
}
```

Example Request

Create Coupon

```
curl --location --request POST 'https://readvive.onrender.com/api/v1/discount/coupon' \
--data-raw '{
```

```
"discount_amount":100
}'
```

GET All Coupons

https://readvive.onrender.com/api/v1/discount/coupon

Example Request

All Coupons

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/discount/coupon'
```

GET A Coupon

https://readvive.onrender.com/api/v1/discount/coupon/2

Example Request

A Coupon

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/discount/coupon/2' \
--data-raw ''
```

PUT Update Coupon

https://readvive.onrender.com/api/v1/discount/coupon/2

BODY raw

```
{
  "code":"edvive6"
}
```

```
curl --location --request PUT 'https://readvive.onrender.com/api/v1/discount/coupon/2' \
--data-raw '{
  "code":"edvive6"
}'
```

DEL Delete Coupon

https://readvive.onrender.com/api/v1/discount/coupon/1

Example Request

Delete Coupon

```
curl --location --request DELETE 'https://readvive.onrender.com/api/v1/discount/coupon/1'
```

Promo API

POST Create Promo

https://readvive.onrender.com/api/v1/discount/promo

BODY raw

```
{
  "code":"edvive100",
  "discount_type":"flat",
  "discount_amount":100,
  "affiliate_amount":40
}
```

Example Request

Create Promo

```
curl --location --request POST 'https://readvive.onrender.com/api/v1/discount/promo' \
--data-raw '{
  "code":"edvive100",
  "discount_type":"flat",
  "discount_amount":100,

```
curl --location --request DELETE 'https://readvive.onrender.com/api/v1/discount/promo/1'
```

GET Get All Promo

https://readvive.onrender.com/api/v1/discount/promo

Example Request

Get All Promo

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/discount/promo'
```

GET Promo price

https://readvive.onrender.com/api/v1/discount/promo/price?code=edvive100

PARAMS

code

edvive100

Example Request

Promo price

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/discount/promo/price?code=edvive100'
```

Progress

POST Create Progress

https://readvive.onrender.com/api/v1/progress

BODY raw

```
{
  "wpm": 190,
  "lexical": 80,
  "comprehension":79,
  "lesion_no":1
}
```

Example Request

Create Progress

```
curl --location --request POST 'https://readvive.onrender.com/api/v1/progress' \
--data-raw '{
  "wpm": 190,
  "lexical": 80,
  "comprehension":79,
  "lesion_no":1
}'
```

GET Get All Progress

https://readvive.onrender.com/api/v1/progress

Example Request

Get All Progress

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/progress'
```

https://readvive.onrender.com/api/v1/progress?lesson=1

PARAMS

lesson

1

BODY raw

```
{
  "wpm": 200,
  "lexical": 83,
  "comprehension":78
}
```

Example Request

Update Progress

```
curl --location --request PUT 'https://readvive.onrender.com/api/v1/progress?lesson=1' \
--data-raw '{
  "wpm": 200,
  "lexical": 83,
  "comprehension":78
}'
```

Users

GET Get Users

https://readvive.onrender.com/api/v1/users

Example Request

Get Users

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/users'
```

https://readvive.onrender.com/api/v1/users/update-level

After user assessment test if user get intermediate or advanced batch need to hit this api for update user level then they can access directly intermediate or advance lession

BODY raw

```
{
  "level":"intermediate"
}
```

Example Request

Level Update

```
curl --location --request PUT 'https://readvive.onrender.com/api/v1/users/update-level' \
--data-raw '{
  "level":"intermediate"
}'
```

GET Get Subscriber

https://readvive.onrender.com/api/v1/users/subscriber

Example Request

Get Subscriber

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/users/subscriber'
```

Bulk Users

POST Create Users

https://readvive.onrender.com/api/v1/bulk/bulk-creation

```
{
  "first_name": "kash",
  "last_name": "pia",
  "email": "kashpia@gmail.com",
  "password": "abcd1234",
  "phone": "01912345678",
  "package_id": 2
}
```

Example Request

Create Users

```
curl --location --request POST 'https://readvive.onrender.com/api/v1/bulk/bulk-creation' \
--data-raw '{
  "first_name": "kash",
  "last_name": "pia",
  "email": "kashpia@gmail.com",
  "password": "abcd1234",
  "phone": "01912345678",
  "package_id": 2
}'
```

GET get b2b users

```
https://readvive.onrender.com/api/v1/bulk/bulk-users
```

Example Request

get b2b users

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/bulk/bulk-users'
```

GET get all b2b users

```
https://readvive.onrender.com/api/v1/bulk/bulk-all-users
```

b2b patner user can be getting by puutting name field in query params like that

<https://readvive.onrender.com/api/v1/bulk/bulk-all-users?name=mohidul>

or

<https://readvive.onrender.com/api/v1/bulk/bulk-all-users>

Example Request

get all b2b users

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/bulk/bulk-all-users'
```

Feedback

POST create feedback

https://readvive.onrender.com/api/v1/feedback

BODY formdata

title
very good

max_range
79

min_range
70

feedback
Best Of luck

img_url

Example Request

create feedback

```
curl --location --request POST 'https://readvive.onrender.com/api/v1/feedback' \
--form 'title="very good"' \
--form 'max_range="79"' \
--form 'min_range="70"' \
--form 'feedback="Best Of luck"' \
--form 'img_url=@"/home/edvive/Downloads/edvive_mascot_v1.png"'
```

https://readvive.onrender.com/api/v1/feedback

Example Request

get all feedback

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/feedback'
```

GET get a feedback

https://readvive.onrender.com/api/v1/feedback/1

Example Request

get a feedback

```
curl --location --request GET 'https://readvive.onrender.com/api/v1/feedback/1'
```

PUT Update feedback

https://readvive.onrender.com/api/v1/feedback/1

Example Request

Update feedback

```
curl --location --request PUT 'https://readvive.onrender.com/api/v1/feedback/1'
```

DEL Delete feedback

https://readvive.onrender.com/api/v1/feedback/1
